THANK YOU FOR YOUR SUPPORT!!!

Your contribution will help guarantee continued support of our students and the future of NSA!!!

The **National Shellfisheries Association Student Endowment Fund (SEF)** was established in 1989 by Past President Scott Siddall and the student members were formally organized as a group by Past President Sandra Shumway in 1991 who dubbed them "The Recruits". The SEF provides financial assistance to students to attend the annual conference where they can meet and mingle with senior scientists, discuss research and arrange for future employment. Recruits are trained not only in the technical aspects of scientific research, but are also afforded experience in other arenas important to a career in science. To date, the primary source of funds for the SEF has come through proceeds generated by the Annual SEF Auction – the financial future of the SEF needs a more solid base! Your contribution, no matter how small, will help to secure that future.
